CAMBRIA COMMUNITY SERVICES DISTRICT

TO: Board of Directors

AGENDA NO. **5.A.**

FROM: John F. Weigold, IV, General Manager

Meeting Date: September 15, 2022

Subject: General Manager's Report

GENERAL MANAGER:

The District continues its mission of providing water, wastewater collection and treatment, emergency response, facilities, and administrative services. In addition to the daily operations of the District, the following is an update on some of our current ongoing projects and activities:

Fire Chief Recruitment

The District is nearing a decision on a finalist candidate for the position of District fire chief.

Proposition 218 Solid Waste Rate Increase

The Board reviewed proposed increased solid waste rates during its Board meeting on July 21, 2022. Mission Country Disposal mailed 4,018 Prop 218 notices to customers on August 1, 2022. Protest procedures are outlined in the notice and 2,010 valid protests (50% + 1) will be required for overturning the rate increase. The Board will hold a public hearing today to consider adopting the rate increase.

Pinedorado

The District supported the 72nd Pinedorado celebration in Cambria over the Labor Day weekend. Several District vehicles were part of the parade, including Fire, Utilities and Facilities and Resources (F&R) Departments. The F&R Department, in conjunction with the Friends of the Fiscalini Ranch Preserve, was awarded the Sweepstakes Award. They didn't just win an award, they won first prize, best float at Pinedorado!

Congressional Visits

On Tuesday, August 16, Representative Jimmy Panetta, visited the District's wastewater treatment plant. Board and staff members briefed the congressmen on District operations and current challenges and issues.

Our current congressman, Representative Salud Carbajal, visited the District on Wednesday, August 24. He met with County, Board, and staff representatives at our wastewater plant and also visited our Stuart Street water storage tank, for which he successfully helped the District with a \$375,000 grant for tank refurbishment.

Regulatory Compliance

The District continues to provide all required regulatory reporting on or ahead of schedule.

1 - Public Record Requests and Responses

Public Record Requests and Responses

The District received and has responded to two (2) Public Record Act Requests since August 4, 2022 by the following individuals:

8/20/2022 Christine Heinrichs - *Please send me all documentation of the county's "verbal" (oral) unlimited extension agreement for the district's EWS/SWF/WRF permit application, as mentioned in your Utilities Report at the August 18, 2022 CSD meeting, and anything else related to the application's current status.*

On August 30, 2022, the CCSD responded to Christine Heinrichs' 8/20/2022 Public Records Request with the following:

Enclosed is the following document which is responsive to your request:

- *2022 06 20 Follow-Up: CCSD Application DRC2013-00112 Status of Info Hold Items email*

8/25/2022 Tina Dickason - *Please provide any and all communications, whether in writing, emails, text messages, or phone calls, where written notes were taken, and/or transcriptions of phone messages, including voicemails, for the following: Communications between the General Manager, Mr. Weigold, Deryl Robinson (UnLOC), Dennis Dudzik (UnLOC), former CCSD GM, Jerry Gruber, former CCSD Board member, Jim Bahringer, CCSD Board President, Donn Howell, and current Board member, Tom Gray. I am requesting that any/all communications between these individuals, whether one on one or in combination with any of the above-mentioned individuals, where more than one of the above was included in an email, be provided in this request.*

On 8/30/2022, the CCSD responded to Tina Dickason's 8/25/2022 Public Records Request with the following:

Due to the voluminous number of records you requested and the need to review our files to determine if anything responsive exists, a fourteen (14) day extension until September 19, 2022 is needed to search our files. You will be notified if records have been identified and are available earlier.

It would be helpful if you could narrow your request to specific, identifiable documents or records. We would be happy to assist you in that regard.

Facilities and Resources Manager Report

Beginning September 12th, removal of ice plant on three sections of the Bluff Trail will begin. A local contractor will pull the ice plant, load and haul it away. Funding for this work is being provided by Friends of the Fiscalini Ranch. Work is expected to take 1 to 2 weeks to complete. The public should expect closure of sections of the Bluff Trail as work is being performed.

Why remove ice plant?:

Iceplant is a coastal succulent shrub native to the coast of South Africa, where the climate is similar to that of coastal California. Iceplant was introduced to California in the early 1900s as an erosion stabilization tool used on railroad tracks, and later used by Caltrans on roadsides. It has been used as an ornamental for many years, and is still sold in nurseries. Unfortunately, iceplant spreads easily, and has become invasive in coastal California from north of Humboldt County to as far south as Baja California. When it establishes in a location, it forms a large, thick mat that chokes out all other native plants and alters the soil composition of the environment. Because it is a coastal invader, it competes with many endangered, threatened and rare plants.

Volunteer Schedule for Fiscalini Ranch Preserve:

- Saturday, September 17, 10:00 a.m. to noon: water the Monterey pine saplings
- Saturday, October 22, 10:00 a.m. to noon: water the Monterey pine saplings
- * Watering work parties will meet south of the Dolphin Bench (look for the truck).
- Weekly (Wednesday morning) invasive plant removal: The yearly invasive plant removal program has come to an end for 2022. Thank you to all the volunteers who participated and a special thanks to Michael Thomas who led the weekly volunteers!
- Trail Work: Monthly workdays are being planned to maintain and prepare trails for the upcoming winter. To be included in the email list contact Brian Morgan (FFRP Trails Leader): 73jnhly@gmail.com

Dog Park

Volunteer opportunities are available at the Park. From refilling doggy bag dispensers, picking up trash, pulling weeds to fundraising.

One of the bigger projects for the Department during the month of August was the removal and replacement of 380 feet of split rail fence along Rodeo Grounds Rd. The fence had reached the end of its life. Removal, clean up and installation of a new fence was done in house by F&R Staff. Pictures on the next page shows the new fence.

On Monday August 22nd Caltrans, CHP and a Contractor cleaned up two encampments along Hwy 1 bordering the Fiscalini Ranch Preserve. Clean up of the encampments took only a few hours. F&R Staff inspected the surrounding CSD properties before and after the clean up and were onsite during the work. No encampments were found on CSD neighboring properties.

At this time, the CCSD has adequate resources to meet its cash commitments. Staff will continue to be frugal in purchases, postpone non-critical purchases and carefully monitor their respective budget(s).

Staff submitted a reimbursement request for COVID-19 costs to FEMA. The next step in the process is for FEMA to determine if the costs submitted are eligible for reimbursement, which continues to be under review. Staff received correspondence from FEMA regarding assignment of a new recovery specialist. Staff will report on the outcome as more information becomes available.

In late January 2021, CCSD facilities and equipment were damaged by the significant rain and windstorm activity. Staff has continued working with the County of San Luis Obispo Office of Emergency Services and the State-CALOES to recover eligible costs. The State-CALOES staff met with CCSD staff and toured the damaged sites in early December 2021. Staff is working with State-CALOES on cost recovery efforts and damage assessment reports are routing through the State-CALOES approval process.

Utilities Report for September 2022

Department Activities for the Month of August

Wastewater Treatment Plant (WWTP)

This month, two congressmen visited the WWTP: Salud Carbajal and Jimmy Panetta. Congressman Carbajal represents the current 24th District, and Jimmy Panetta is campaigning for the newly drawn 19th District (See picture Figure E).

Routine maintenance occurred at the plant in August, including trimming vegetation around the plant and rebuilding an air evacuation valve on the influent pump station.

A high-water alarm was added to the plant's Supervisory Control and Data Acquisition (SCADA) system this month. This alarm lets operators know when the water level exceeds set parameters at the influent screen.

Wastewater Collection System

A colony of bees was found in a manhole on the Fiscalini Ranch. Operator Toni Artho contacted a local beekeeper who was able to remove and relocate the bees. Manhole maintenance continued throughout the month, including at Shamel Park. Accessing these manholes allowed staff to clean the lines approaching the trunk line on Windsor.

Staff began a pilot program to reduce hydrogen sulfide (H₂S) in the system at lift station B-3. Staff is working with a company that uses a proprietary formula called SOLUTEK. SOLUTEK is a non-toxic, sterile, non-flammable and biodegradable formulation that does not contain live cultures, bacteria, enzymes or living organisms. SOLUTEK formulation is kelp based, providing a food source for naturally occurring bacteria. These bacteria will "eat" the substances that cause fats, oils, and grease, and substances that causes odors. Staff will evaluate results when completed.

Weed abatement via goat grazing was completed this month at the percolation ponds.

Figure B - Santa Rosa Well 4 rehabilitations

The month of August began with the continued rehabilitation of the Santa Rosa 4 well. Repair to a four-foot section of well casing was completed and then inspected via camera to confirm satisfactory condition. Later in the month, Miller Drilling Company was on site to perform the installation of the new pump, motor, and 120 feet of suction pipe. The installation was completed in under four hours. This allowed staff to complete treatment preparation and configure the appropriate chemical settings for processing later that afternoon. As of Thursday, August 25th, Santa Rosa Well 4 was back in service. This provides a much-needed rest for Santa Rosa Well 3.

Staff completed a service line replacement on Banbury Road this month, which turned out to be a larger project when the saddle on the main was

exposed and revealed extreme corrosion. Water service saddles are a fitting at the connection of the service line to the water main. The service line and saddle were fully replaced after isolating the area. This caused a temporary interruption in service to customers in the immediate area, but full service was restored within just a few hours. As always, we appreciate the patience and understanding of our customers when repairs and maintenance activities result in inconveniences.

Figure C - Corroded saddle on Banbury Rd before (right) and after replacement (left)

Figure D - Pipe condition before (left) and after (right) maintenance

Staff performed maintenance at the Stuart Street Tank site including exterior painting and pump motor servicing. Later this year, the Division of Drinking Water will perform a Sanitary Survey of all water system infrastructure. This survey is conducted every three years to ensure the system is maintained and operated in compliance with permit conditions and industry standards.

Congressman Salud Carbajal and SLO County Supervisor Bruce Gibson visited the spruced-up Stuart Street Tank site in August. The congressman was instrumental in helping the CCSD secure \$375,000 in federal funding for the tank replacement project. Supervisor Gibson was among the project's many supporters.

Bottom picture from left to right: Program Manager Melissa Bland, Water Systems Superintendent Jim Green, General Manager John Weigold IV, Board Vice President Karen Dean, Congressman Jimmy Panetta, District Engineer/Utilities Dept Manager Ray Dienzo, Wastewater Superintendent John Allchin at the Wastewater Treatment Plant.

Figure F - Fire flow pump installation at the Leimert Booster Station

A fire flow motor and pump at the Leimert Booster Station was placed back online after necessary servicing. This is part of a larger fire flow maintenance program to ensure emergency equipment is capable of meeting flow requirements if called upon. Similar testing and repairs are being made at other booster station locations. Thanks go out to our Wastewater team for the use of their crane truck to ease the installation of this 400-pound pump.

Water Supply Status

As of August 31, the CCSD has diverted 32% and 40% of the annual San Simeon Creek and Santa Rosa Creek allocations, respectively, with 74% of total production coming from the San Simeon Creek aquifer. Approximately 33% of the San Simeon and 41% of the Santa Rosa dry season allocation has been used. San Simeon Creek well levels are stable due to dry season basin management protocols (see attached charts). Additional well level data and production summary reports are available on the website at www.cambriacsd.org/water-data.

Other Water Department activities for August are listed below.

Activity	# Completed
Manual Meter Reads/Locates for Billing Purposes	1625

Water Reclamation Facility (WRF)

Staff continues to circulate a preservative solution through the microfiltration and reverse osmosis media at the Advanced Water Treatment Plant. This practice prevents fouling of the media to biological growth.

Repairs to the influent strainer filter took place this month. New O-rings and brass fittings were replaced during repairs.

Conservation & Permits

Water Supply & Demand

Net diversion in August 2022 was 0.10 acre-feet higher than the same month last year. Although the Stage 3 declaration did not occur until the 18th day of August, the Potable Water Shortage Assessment Table (see attached) called for a 12.7-acre-foot reduction this month. Instead, the community achieved a 3.8-acre-foot reduction. Demand in September is anticipated to drop due to decreased tourism with the start of the school year. Regardless, a full 20% reduction is needed in September to reach our demand reduction goals for the 2022-2023 year.

Conservation staff was busy in August! This month, two violations of water waste prohibitions and/or water shortage response actions were observed and cited. Both were related to landscape irrigation restrictions at commercial lodging properties, including allowing runoff and irrigating outside of permitted times. Allowing runoff and irrigating between the hours of 10 am and 6 pm are water waste violations and are subject to written citation and a fine of \$50. Both citations include the \$50 fine. One of the violations included a suspected violation of the 1 day-per-week irrigation restriction. This violation was cited but not fined per the Water Shortage Contingency Plan. Subsequent violations will incur fines up to \$500.

Staff also developed and released a one-pager with facts about Cambria's water supply. A copy is provided at the end of this report. This flyer is intended primarily for display in all

hotel/motel/vacation rental rooms to emphasize the importance of water conservation in Cambria.

After the Stage 3 declaration on August 18th, staff spent considerable time preparing notices for all large landscape, commercial lodging (including vacation rentals), and food service customers. These customers are required to certify compliance with current water shortage response actions in effect. Staff's conclusion from time spent interacting with customers in our service area is that many people are unaware that water restrictions are even in effect. These notices will ensure that our highest-consuming customers are made aware of restrictions and their duty to comply.

Permit counter activity for the month of August includes the following:

Definitions for Terms Used in This Table

Anticipated Unconstrained Demand: Projection based on the average water production over the last 3 reporting years (July 2018 -June 2021).

Actual Demand: The total amount of potable water produced for the month.

Supply Adjustment: Observed aquifer recharge/depletion from seasonal precipitation/lack thereof.

Anticipated Total Water Supply: The target amount to be produced assuming dry years conditions.

Anticipated Surplus/Shortage w/o WSCP: The volumetric difference in the anticipated unconstrained demand and anticipated total water supply without any shortage response actions.

Anticipated % Surplus/Shortage w/o WSCP Action: The difference in the anticipated unconstrained demand and anticipated total water supply without any shortage response actions expressed as a percentage.

State Standard Shortage Level: The corresponding shortage level per California Water Code Section 10632(a)(3)(A).

Anticipated Benefit from WSCP - Supply Augmentation: Projected volume of water added to the supply, such as from the operation of the Water Reclamation Facility.

WSCP: Water Shortage Contingency Plan

WATER FACTS TO KNOW

A Message from the Cambria Community Services District

Cambria's sole source of water is groundwater from two creek aquifers, which also provide critical habitat for sensitive coastal plants and wildlife.

Cambria has a Water Shortage Contingency Plan which imposes monetary penalties for violating shortage response actions or wasting water.

Cambria's residents, businesses, and thoughtful visitors (like you!) help make this community incredibly water efficient, with current total water use about 30% lower than in 2013.

Guests at Cambria's lodging establishments have the option to save water by reusing linens and opting out of daily laundry service.

Our restaurants and bars are not allowed to serve water unless specifically requested. Thirsty? Just ask!

If you see something, say something! We depend on our customers and visitors to alert us to leaks or suspected water waste.

Submit a form on our website or call us 24/7 to let us know.

You have the power to shorten your shower! Taking a 5-minute shower can save thousands of gallons a year. Pick a 5-minute song to help you keep track of time. Here are some drought-friendly songs to start you off right:

Rocket Man | Elton John (4:41)
Running Up That Hill | Kate Bush (5:00)
My Sharona | The Knack (4:52)
I Gotta Feeling | Black Eyed Peas (4:49)

Wastewater Plan Financing Ad Hoc Committee

Ad Hoc Committee Recommendations Regarding Internal Processes Relative to Approved Financing

CCSD Board established an Ad Hoc Committee comprised of Vice President Karen Dean and Director Cindy Steidel in support of the Wastewater Financing Process and Financing Team.

As outlined previously, the Ad Hoc has had opportunity to review all documents, interface directly with members of the Financing Team and provide our input.

When secured, the financing has interface and reporting requirements which will be executed by the District General Manager and Staff. These process-specific and repetitive actions are detailed within the various agreements and contractual obligations, with regards to fund disbursements, debt repayment, and required structures within our district accounting. Because a number of these processes would be different or additive to current practices, we feel that it is important to determine areas where the understanding and agreement of process should occur. In addition, this provides early oversight and the opportunity for transparency to the community, which would not be attained without a detailed review of all documentation.

It is the recommendation that support from this Ad Hoc Committee be extended through the following suggested process.

- A working group be established comprised of Administrative Services Manager Pam Duffield, Finance Manager Denise Fritz, General Manager John Weigold, Board Vice President Karen Dean and Board Director Cindy Steidel.
- Purpose of the Working Group will be to review and document all transactional obligations, reporting requirements and actions to fulfill those requirements, which may also require definition of authority levels.
- The intent is identification of district transactional obligations, thereby providing institutional knowledge and consistency over lifetime of the debt service. This review may also identify where obligations are satisfied with existing District processes (e.g., Fiscal Budget Approvals, Fiscal Audit Submittals), determination of required documented processes, and identification of key submittal dates.
- When complete, a summary of recommendations and associated actions will be brought to the Board for consideration and implementation, as needed

Respectfully submitted,

Director Steidel

DISCUSSION:

As the Board is aware, the State and County of San Luis Obispo have adopted a number of executive orders declaring a public health emergency and imposing restrictions on the general population to help control the spread of the COVID-19 virus. The Board of Directors adopted Resolution 52-2020 on November 19, 2020, which requires the Board to determine whether a local state of emergency continues to exist once a month. As the COVID-19 virus continues to significantly impact the State and country, it is recommended that the Board adopt Resolution 62-2022 declaring a continued local state of emergency.

AGENDA NO. **6.D.**FROM: John F. Weigold, IV, General Manager
Timothy Carmel, District Counsel

Meeting Date: September 15, 2022 Subject: Consideration of Adoption of Resolution 63-2022 Authorizing the Continuance of Remote Teleconference Meetings of the Legislative Bodies of the Cambria Community Services District Pursuant to Government Code Section 54953(e)(3)

RECOMMENDATIONS:

It is recommended that the Board of Directors consider adoption of Resolution 63-2022 to continue authorizing remote teleconference meetings of the legislative bodies of the Cambria Community Services District Section 54953(e)(3).

FISCAL IMPACT:

The fiscal impact of continuing to implement the teleconferencing requirement, for CCSD Board, Standing Committees and PROS Commission regular and special meetings includes AGP Video expense and continuing the Zoom subscription. An estimate of cost of expenses for a regular and special Board meeting are listed below. AGP Video does not attend and support Standing Committee and PROS Commission meetings.

Teleconference Meeting Expense – AGP Video & Zoom	
Contract Rate - Meeting (up to 3 hours)	\$350.00
Overtime Rate	\$125.00
SLO-SPAN Streaming	\$200.00
Zoom Subscription – Monthly	\$389.90
Grand Total per meeting	\$1,064.90

DISCUSSION:

At the September 24, 2021 Board of Directors meeting the Board of Directors adopted Resolution 37-2021 authorizing remote teleconference meetings of the legislative bodies of the Cambria Community Services District in accordance with newly adopted Government Code Section 54953(e) that was added to the Brown Act by AB 361.

Government Code Section 54953(e) permits legislative bodies, when there is a proclaimed State of Emergency declared by the Governor pursuant to Government Code Section 8625, to make a determination to authorize meeting remotely via teleconferencing as a result of the emergency. To do so, a resolution needs to be adopted in which the legislative body finds that meeting in

person would present imminent risks to the health or safety of attendees, or that State or local officials have imposed or recommended measures to promote social distancing.

The initial resolution is valid for thirty (30) days after teleconferencing for the first time pursuant to Government Code section 54953(e). If the State of Emergency remains active after that 30 day period, the local agency may act to renew its resolution and continue authorizing remote teleconferenced meetings by passing another resolution which includes findings that the State of Emergency declaration remains active, the local agency has reconsidered the circumstances of the State of Emergency, and the local agency has either identified: A) ongoing, direct impacts to the ability to meet safely in-person, or B) active social distancing measures as directed by relevant State or local officials.

Resolution 37-2021, adopted on September 24, 2021, included findings and was based upon a determination that as a result of the proclaimed State of Emergency in California due to the COVID-19 pandemic, and its continued spread in San Luis Obispo County and Cambria through the Delta variant of SARS-CoV-2, which is more transmissible than prior variants of the virus, may cause more severe illness, and that even fully vaccinated individuals can spread the virus to others, holding meetings in person would present imminent risks to the health or safety of attendees. Recently, the BA.2 variant, which is highly transmissible, has become the dominant strain in California.

Resolution 37-2021 became effective immediately and remained in effect for thirty (30) days after teleconferencing for the first time pursuant to Government Code section 54953(e). In order to continue to hold remote teleconferenced meetings in April, the Board of Directors will need to continue to adopt a subsequent resolution every thirty (30) days in accordance with Government Code section 54953(e)(3) to extend the time during which the legislative bodies of the Cambria Community Services District may continue to teleconference without compliance with paragraph (3) of subdivision (b) of Government Code Section 54953.

RESOLUTION 63-2022
September 15, 2022

A RESOLUTION OF THE BOARD OF DIRECTORS
OF THE CAMBRIA COMMUNITY SERVICES DISTRICT MAKING
FINDINGS IN ACCORDANCE WITH GOVERNMENT
CODE SECTION 54953(e)(3), AUTHORIZING THE CONTINUANCE OF
REMOTE TELECONFERENCE MEETINGS OF THE LEGISLATIVE BODIES
OF THE CAMBRIA COMMUNITY SERVICES DISTRICT

WHEREAS, on March 4, 2020 Governor Newsom declared a State of Emergency in the State of California pursuant to Government Code Section 8625 as a result of the threat of the Coronavirus (COVID-19) pandemic, which declaration continues to be in effect; and

WHEREAS, on September 16, 2021 Governor Newsom signed AB 361, which added subsection (e) to Government Code section 54953 of the Brown Act, and makes provision for remote teleconferencing participation in meetings by members of a legislative body, without compliance with the requirements of Government Code section 54953(b)(3), subject to the existence of certain conditions; and

WHEREAS, a required condition of Government Code Section 54953(e) is that a state of emergency is declared by the Governor pursuant to Government Code section 8625, proclaiming the existence of conditions of disaster or of extreme peril to the safety of persons and property within the State caused by conditions as described in Government Code section 8558; and

WHEREAS, in addition to the Governor's proclamation of a State of Emergency, on March 23, 2020 the Board of Directors ("Board") adopted Resolution 09-2020 declaring a State of Emergency to exist in the Cambria Community Services District as a result of the Coronavirus pandemic; and has continued to make determinations that a local State of Emergency continues to exist in the Cambria Community Services District as a result of the Coronavirus pandemic; and

WHEREAS, there has been a significant incidence of COVID-19 cases in San Luis Obispo County due primarily to the BA.2 variant of SARS-CoV-2, the virus that causes COVID-19. Emerging evidence indicates that the BA.2 variant is highly transmissible and can be spread even by fully vaccinated individuals; and

WHEREAS, on September 24, 2021 the Board of Directors adopted Resolution 37-2021, finding that the requisite conditions exist for the legislative bodies of the Cambria Community Services District to conduct remote teleconference meetings without compliance with paragraph (3) of subdivision (b) of section 54953; and

WHEREAS, as a condition of extending the use of the provisions found in section 54953(e), the Board of Directors must reconsider the circumstances of the State of Emergency that exists in the District, and the Board of Directors has done so; and

WHEREAS, the Board of Directors now desires to adopt a Resolution finding that the requisite conditions exist for the legislative bodies of the Cambria Community Services District, as defined in the Brown Act, to continue to conduct remote teleconference meetings without compliance with paragraph (3) of subdivision (b) of Government Code section 54953.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Cambria Community Services District as follows:

1. The above recitals are true, correct and are incorporated herein by this reference.
2. In accordance with the requirements of Government Code Section 54953(e)(3), the Board of Directors of the Cambria Community Services District hereby finds and determines that it has reconsidered the circumstances of the State of Emergency and that the State of Emergency continues to exist and to directly impact the ability of the members to meet safely in person due to the COVID-19 pandemic, and its continued spread in San Luis Obispo County and Cambria through the BA.2 variant of SARS-CoV-2, which is highly transmissible, and that even fully vaccinated individuals can spread the virus to others, and therefore holding meetings in person would present imminent risks to the health or safety of attendees.
3. The General Manager and legislative bodies of the Cambria Community Services District are hereby authorized and directed to continue to take all actions necessary to carry out the intent and purpose of this Resolution including, continuing to conduct open and public remote teleconferencing meetings in accordance with the requirements of Government Code section 54953(e) and other applicable provisions of the Brown Act.
4. This Resolution shall take effect immediately upon its adoption and shall be effective for thirty (30) days after its adoption, subject to being extended for an additional 30 day period by the Board of Directors adoption of a subsequent resolution in accordance with Government Code section 54953(e)(3) to further extend the time during which the legislative bodies of the Cambria Community Services District may continue to teleconference without compliance with paragraph (3) of subdivision (b) of Government Code section 54953.

Resolution 63-2022 was adopted at a regular meeting of the Cambria Community Services District on September 15, 2022.

CAMBRIA COMMUNITY SERVICES DISTRICT

TO: Board of Directors

AGENDA NO. **7.A.**

FROM: John Weigold, IV, General Manager

Meeting Date: September 15, 2022 Subject: Public Hearing Pursuant to Proposition 218 Regarding Mission Country Disposal's Solid Waste Rate Increase Request and Discussion and Consideration of Adoption of Resolution 64-2022 Authorizing the Solid Waste and Recycling Collection Service Rate Increase

RECOMMENDATIONS:

1. Receive report and presentation by Mission Country Disposal;
2. Open public hearing to consider all public comment in support and in opposition of the proposed rate increase;
3. Close public hearing;
4. Report results of Proposition 218 written protests;
5. Discussion; and
6. If a majority protest does not exist, adopt Resolution 64-2022 approving Mission Country Disposal's rate increase, effective October 1, 2022.

FISCAL IMPACT:

All costs associated with the processing of the proposed rate increase to comply with the requirements of Proposition 218 will be borne by Mission Country Disposal.

DISCUSSION:

The Franchise Agreement with Mission Country Disposal (MCD) requires, among other things, that MCD provide solid waste, recyclable materials, and green waste collection and disposal services for the District. The Agreement also spells out MCD's allowable profit and the rate adjustment review process. Under the Franchise Agreement, rates are to be calculated in accordance with the "City of San Luis Obispo Rate Setting Process and Methodology Manual for Integrated Solid Waste Management Rates." Accordingly, the District retained Mr. Bill Statler to provide an independent review of the rate adjustments being proposed by MCD, and his report was submitted to the Board of Directors in July, after which the Board set the date for this public hearing.

On October 20, 2021, MCD submitted a Base Year rate increase application to be effective January 1, 2022 to the CCSD. However, due to complexity, concerns with pending rate increases by the Integrated Waste Management Authority (IWMA) and significant subsequent reviews and information exchanges, a revised application was submitted on March 24, 2022. In its revised

application, MCD requested a rate increase of 41.46% compared with an initial rate request in October 2021 of 43.98% (about a 2.5% decrease). In addition, if the Resolution is adopted, there will be a 20.73% increase to recover revenue lost due to this rate increase being delayed from July 1, 2022 to October 1, 2022, for a total of 62.19%. This delayed rate implementation recovery component will expire April 1, 2023.

In compliance with the requirements of Proposition 218, Mission Country Disposal mailed to all property owners and tenant customers receiving solid waste and recycling collection services within the District the Notice of Public Hearing at least 45 days prior to today's public hearing.

As set forth in the Proposition 218 Notice, the increase is necessary for the Mission Country Disposal to continue to provide safe, environmentally sound, and reliable solid waste, recycling, green waste/organics collection, transportation and disposal/processing services to the citizens of the District. Several factors contributed to this rate increase including, but not limited to: increased costs associated with the purchase and operation of collection vehicles, fuel costs, labor costs, and increased costs associated with the organics digester facility.

The organics digester facility is required by California Senate Bill 1383 (SB 1383), and previously approved California Assembly Bill 1826 (AB 1826). SB 1383 is a recent state law passed with the goal of reducing methane. Methane is a potent greenhouse gas, with more than 80 times the warming power of carbon dioxide, and is a major component of decomposing organic waste. In response to the harmful effects of methane gas, Cal Recycle (a branch of the California Environmental Protection Agency) adopted regulations implementing SB 1383 in the fall of 2020. Key components of SB 1383 include implementing organic waste collection programs (including food waste), monitoring organics carts for contamination, and reporting data. AB 1826 requires local jurisdictions to develop a program to divert organic waste from landfills to an authorized composting facility like an anaerobic digester.

The Proposed Rate Increase of 41.46% is based on the following cost increases incurred by MCD:

1. 6.48% of the Proposed Rate Increase is for capital investment costs of new collection vehicles, replacement containers and additional containers to meet the demands of SB 1383 compliance.
2. 6.13% of the Proposed Rate Increase is for increased capital equipment investments and escalating operating expenses related to the Anaerobic Digester.
3. 6.17% of the Proposed Rate Increase is for market wage adjustments to attract and retain safe, quality employees.
4. 2.74% of the Proposed Rate Increase is for increases in insurance premiums.
5. 2.52% of the Proposed Rate Increase is for increased gas and oil costs.
6. 1.59 of the Proposed Rate Increase is for increases in other operational expenses including a Consumer Price Index increase of 5.3%.
7. 7.83% of the Proposed Rate Increase is for recovery of the deficit in the revenue requirement
8. 8.0% of the Proposed Rate Increase is related to the allowed profit margin

In summary, the total rate increase implemented October 1, 2022 will be 62.19%. The 20.73% delayed rate implementation recovery increase will expire April 1, 2023, net of any Consumer Price Index adjustment. Commencing on January 1, 2023 and January 1, 2024, rates will be increased based on the following:

1. Increases, if any, in the Consumer Price Index (CPI) for Bureau of Labor Statistics' Consumer Price Index for Urban Consumers based on the All U.S. City Average, Bureau of Labor Statistics for the month of June 2022 for January 1, 2023 and June 2023 for January 1, 2024.

This public hearing is being conducted in accordance with the requirements of Proposition 218. In order to protest the proposed increase written protests against the proposed rate increase must be filed with the District Clerk before the close of the public hearing. It should be noted that for purposes of determining protests, State law provides for one written protest per parcel. Mission Country serves 4018 parcels within the CCSD; if written protests against the rate increase are presented by 2011 property owners/tenant customers, the rate increase cannot be imposed.

Reason for the Proposed Rate Increase

The Proposed Rate Increase is 41.46 percent for solid waste, recycling, and green waste/organics collection services. In addition, there will be a temporary 20.73 percent increase to recover revenue lost due to this Proposed Rate Increase being delayed from July 1, 2022 to October 1, 2022 for a total of 62.19 percent. This temporary revenue recovery component will expire April 1, 2023. The increase is necessary for the Garbage Company to continue to provide safe, environmentally sound, and reliable solid waste, recycling, green waste/organics collection, transportation and disposal/processing services to the residents of the District. Several factors contributed to this Proposed Rate Increase including, but not limited to: increased costs associated with the purchase and operation of collection vehicles, fuel costs, labor costs, and increased costs associated with the organics digester facility.

The organics digester facility is required by California Senate Bill 1383 (SB 1383), and previously approved California Assembly Bill 1826 (AB 1826). SB 1383 is a recent State law passed with the goal of reducing methane. Methane is a potent greenhouse gas, with more than 80 times the warming power of carbon dioxide, and is a major component of decomposing organic waste. In response to the harmful effects of methane gas, Cal Recycle (a branch of the California Environmental Protection Agency) adopted regulations implementing SB 1383 in the fall of 2020. Key components of SB 1383 include implementing organic waste collection programs (including food waste), monitoring organics carts for contamination, and reporting data. AB 1826 requires local jurisdictions to develop a program to divert organic waste from landfills to an authorized composting facility like an anaerobic digester.

Basis of the Proposed Rate Increase

The Proposed Rate Increase of 41.46 percent is based on the following cost increases incurred by the Garbage Company:

1. 6.48 percent of the Proposed Rate Increase is for capital investment costs of new collection vehicles, replacement containers and additional containers to meet the demands of SB 1383 compliance.
2. 6.13 percent of the Proposed Rate Increase is for increased capital equipment investments and escalating operating expenses related to the organics digester facility.
3. 6.17 percent of the Proposed Rate Increase is for market wage adjustments to attract and retain safe, quality employees.
4. 2.74 percent of the Proposed Rate Increase is for increases in insurance premiums.
5. 2.52 percent of the Proposed Rate Increase is for increased gas and oil costs.
6. 1.59 percent of the Proposed Rate Increase is for increases in other operational expenses including a Consumer Price Index increase of 5.3 percent.
7. 7.83 percent of the Proposed Rate Increase is for recovery of the deficit in the revenue requirement
8. 8.0 percent of the Proposed Rate Increase is related to the allowed profit margin

The additional temporary 20.73 percent recovery rate increase is for the delayed rate implementation that was no fault of the Garbage Company. The total Proposed Rate Increase implemented October 1, 2022 will be 62.19 percent. The temporary 20.73 percent recovery rate increase will expire April 1, 2023, net of any Consumer Price Index adjustment as discussed next.

In addition, commencing on January 1, 2023 and January 1, 2024, rates shall be increased based on the following:

1. Increases, if any, in the Consumer Price Index (CPI) for Bureau of Labor Statistics' Consumer Price Index for Urban Consumers based on the All U.S. City Average, Bureau of Labor Statistics for the month of June 2022 for January 1, 2023 and June 2023 for January 1, 2024.

A copy of the 2022 Base Year Rate Adjustment Application, which provides additional information on the Proposed Rate Increase, is available at the District office located at 1316 Tamsen Street, Suite 201 Cambria, CA 93428.
