

## Press Release

For Immediate Release

Press Release: Pine Knolls Area Notice of Low Water Pressure On June 27, 2017

Tomorrow, Tuesday, June 27, 2017 between 9:00 am and 4:00 pm you will experience very low water pressure (approximately 10 psi) as the Cambria Community Services District repairs a major water leak in the distribution system.

You will have enough water pressure to turn on a tap and flush a toilet. The tap will be a slow stream, and the toilet tank will fill much more slowly than usual. It is unlikely you will have enough water pressure for showering.

We sincerely apologize for the inconvenience, and we appreciate your understanding as we work to make this emergency repair.

The following streets in the Pine Knolls area, pressure zone 7, will be impacted by the repair:

Ashby	Greystone	Iva	Pinewood	Weymouth
Canterbury	Grove	Manor	Suffolk	
Coventry	Hartford	Northampton	Sunbury	
Darby	Hillcrest	Oakhurst	Warwick	

Please call the District Office at (805) 927-6223 if you have questions or comments. If you call after 4:00 pm, an answering service will collect your message and a CCSD representative will return your call on Wednesday, June 28, 2017.

We will be posting this on our website located at [www.cambriacsd.org](http://www.cambriacsd.org) in order to assist with informing the public.
