

CAMBRIA FIRE DEPARTMENT COMMUNITY OUTREACH PROJECT-NIXLE

Register Your Cell Phone Today for Emergency Alert Texts

What is Nixle? Nixle is a Community Information Service built exclusively for secure and reliable communications. Nixle provides communities throughout the country with instant, up-to-date, public safety messages, alerts and other local information. Nixle makes this information instantly available over the web, mobile, and smart phone devices.

How much does it cost? Nixle is free for both the public agency and the community members registered with Nixle.

What is the difference between text alerts and email alerts? The only difference is that the email messages may longer and be more in depth. Pictures and maps may also be attached to the emails. If you are only receiving the text message you will still get all of the necessary information.

What type of information can be sent out? Public safety alerts, emergency messages, evacuation information, advisories, and any other pertinent up-to-the-minute need to know information.

How do I register for Nixle? Cambria Fire Department has Nixle up and running and all residents should sign up for Nixle as soon as possible to receive instant, up-to-the minute text messages and emails in the event of a public alert or emergency affecting our community. Currently anyone can register by going to Nixle's webpage, the Cambria Fire Department Facebook page, or by sending a text message.

To register via the internet go to: <https://local.nixle.com/register/>

Or by simply sending your zip code via a text message:

To: 888777
Message: 93428
