---

So, you e-mailed me asking for my written comments about the settlement agreement and easement with CUSD. However, you cannot disclose any summary other than the above description that would give me a hint what this dispute is about. So, if you can't disclose what the argument is about, but you want me to comment on it, here is my comment . . . I would like to see how many directors we can fit in our little Cambria jail that exists somewhere around here! We have a right to know what you are doing and why. And it is your duty to let us know.
